Guillermo Jose Hernandez Lopez

Lightspeed Commerce *22/10/2026*

Hiring Team

Berlin, Berlin, Germany

Associate Product Manager, Salesforce (6-7 months Maternity Cover) (all genders)

Dear Hiring Team,

After prompting more AIs and automating more workflows than I'd like to admit, I've learned that real operational impact happens where people, clear processes, and smart technology meet. That is why I am excited to apply for the Associate Product Manager, Salesforce (6-7 months Maternity Cover) (all genders) role at Lightspeed Commerce. With hands-on experience in digital product management, internal tool building, and AI-driven workflow improvements, combined with my Bachelor's in Digital Product Management and current Master's studies in International Business Management in Berlin, I am eager to help your team streamline workflows and deliver measurable results.

In my current role as a Junior Project Manager (Working Student) at Auto1 Group in Berlin, I coordinate across business, tech, product, and customer service teams to drive efficiency across nine markets. Alongside helping roll out an AI voice bot (boosting inbound answer rates by 20% across 9 markets) and optimizing a chatbot handling 30,000+ monthly conversations, I identified operational bottlenecks and built internal web tools to solve them. Specifically, I created an AI Conversation QA web platform with bulk-review capabilities, a centralized Google Reviews & Trustpilot portal with one-click template approvals, and a real-time cross-country knowledge base for live agent collaboration.

I bring strong analytical and organizational skills, hands-on proficiency in Google Workspace, Google Apps Script (JavaScript automation), Looker Studio, Tableau, and Advanced Excel, and a proactive builder mindset. I enjoy creating clarity in fast-paced environments, turning repetitive manual tasks into clean tools, and ensuring projects stay organized and on track. Working in an international Berlin environment has also strengthened my German (B1) alongside my fluent English and native Spanish.

What draws me most to Lightspeed Commerce is the opportunity to contribute to a dynamic, forward-thinking team where structured execution and practical innovation make a tangible difference. Thank you for considering my application—I would welcome the opportunity to discuss how I can support Lightspeed Commerce in this role.

Sincerely,

Guillermo Hernandez
